Middle Badda, Dhaka, Bangladesh

Ashraful Azad

PROFESSIONAL SUMMARY

I am a Project and Product Manager with over 10 years of cross-functional experience, including 6+ years leading digital products, software delivery, and technical operations. I possess expertise in discovery, scope definition, and SRS/PRD preparation, as well as budgeting and sprint planning. I have extensive experience coordinating UI/UX, resolving blockers, and managing quality reviews for final handovers. Additionally, I oversee servers, SaaS administration, and workplace IT support while developing departmental SOPs.

WORK EXPERIENCE

Project & Product Manager, Web & Platform

Spellboound Communications Limited (August 2023 – Present)

- Lead client discovery, clarify business goals, and translate requirements into feature lists, project scopes, SRS/PRD documentation, delivery plans, and acceptance expectations.
- Prepare project budgets, schedules, milestones, and work breakdowns; manage delivery boards and sprint plans across ClickUp, Jira, or Trello according to project needs.
- Bridge clients and technical teams through briefs, daily coordination, feedback management, status reporting, scope clarification, and timely blocker resolution.
- Coordinate product and UI/UX design activities, review delivery quality, and make the final readiness decision before client demonstration and handover.
- Maintain the active and upcoming project pipeline while balancing resources, deadlines, dependencies, and delivery risks.
- Provision new servers and perform routine health checks and maintenance across three existing servers; administer domains, DNS, project email, and employee accounts.
- Ensure workplace internet continuity and provide practical IT support for Microsoft 365/OneDrive, laptops, printers, scanners, access issues, and password resets.
- Develop departmental SOPs and manage documentation and account submissions for SaaS, hosting, domains, business email, and digital-media expenses.

Project Manager, IT development

Optimum Servicec Limited (A concern of Asiatic EXP) (March 2022 to August 2023)

- Managed software projects from scope and budget preparation through scheduling, execution, client review, and delivery.
- Coordinated meetings, briefs, feedback, task assignment, and progress tracking across client and development stakeholders.
- Supported product design and selected Scrum, waterfall, or blended delivery practices based on scope, resources, and timeline.
- Maintained current and upcoming project pipelines, surfaced delivery risks, and aligned teams around priorities and deadlines.

Manager, IT & Business Development

Alienide Interactive (A concern of Softwind Tech) (March, 2020 to April, 2022)

- Coordinated application and game-production projects, including scopes, deliverables, budgets, team briefs, and client communication.
- Contributed to lead generation, game concepts, marketing plans, and activation-based mobile game production; worked on mega projects like WCIT 2021 and Digital World 2020.

Executive, Branding & Communication

PriyoShop.com (E-commerce market place) (May 2019 – November 2019)

- Coordinated offline events, vendors, promotional production, client relationships, social media, campaign concepts, copy, SEO, and product placement.

Executive, Marketing & Visa Processing

The Bridge (Mar 2018 – Apr 2019)

- Built relationships with ministries and project offices, gathered business opportunities, and managed visa and training-participant documentation.

Senior Executive, Operations

Tripzip.Tours (Mar 2018 – Apr 2019)

- Supported end-to-end travel operations including ticketing, visa processing, vendor onboarding, packages, invoices, web enquiries, and client service.

Sales Advisor, Sales Team

TravelLink (UK-based travel agency) (Mar 2018 – Apr 2019)

- Handled telephone sales, customer enquiries, website bookings, air-ticket issuance, and Amadeus-based travel servicing.

Executive, Events & Activation

Spellbound Leo Burnett (Jan 2015 – Jun 2015)

- Planned seminars, product launches, activation, golf and VIP events; coordinated clients, vendors, and branding production for major public programs.

CORE COMPETENCIES

- Project & Product Management
- Client Discovery & Requirements Gathering
- Scope Analysis & Feature Definition
- SRS, PRD & Project Documentation
- Project Budgeting & Timeline Planning
- Agile Sprint Planning & Execution
- Client & Stakeholder Communication
- Cross-Functional Technical Team Coordination
- Risk, Dependency & Blocker Resolution
- Product Design & UI/UX Coordination
- Quality Assurance & Final Delivery Management
- SOP & Business Process Development
- Vendor, Subscription & Technology Procurement
- IT Infrastructure & Workplace Operations
- Server, Domain & Business Email Administration
- Client Service & Operational Leadership

TOOLS & TECHNICAL PROFICIENCIES

- Project Management: ClickUp, Jira, Trello, sprint boards, task tracking, workload planning and delivery monitoring
- Requirements & Documentation: Feature lists, Software Requirements Specifications (SRS), Product Requirements Documents (PRD), project scopes, budgets, timelines, process documentation and SOPs
